## Football Game To-Night

An exhibition game of football will be played tonight at the school grounds, the proceeds of which will go towards the Ladies' Hospital Aid. The game will start at 6.45 sharp, when Mayor Botterill will kick off the ball, but will not kick it towards the windows of the town office. It is hoped there will be a good attendance, as it is for a worthy cause, and the game will be a fast one. The following is the lineup:

Probables	Possibles
Davis goal	Day
J. Oliver back	Gibson
H. G. Scott half back	P. Smith
Scott half back	Byrdie
Krause	Gee
Niel	French
Steadman forwards	Emmerson
Moore	Markle
Hutton	Carwell
Cloves	Batemam
Phillips	Kent

Referee—W. Hadley.

## The Gun Club Annual

The following programme will wind up a most successful season's shoot on Monday next, 21st inst., at 4 o'clock sharp. A full attendance of members is requested, as the programme is good, and some fun is anticipated.

1st event—20 targets, open to men starting in 1911, in B class only. 1st, 100 shells; 2nd, box cigars; 3rd, 50 shells.

2nd event—25 targets. 1st, silver cup and gold cuff links, donated by R. L. Gaetz; 2nd, 150 shells; 3rd, 75 shells.

3rd event—10 targets. Three teams, President, Vice President and Secretary. The two low teams to provide a game dinner for the members of the Gun Club during October.

4th event—10 pairs of doubles. 1st, gold medal, donated by B. P. Allord, and leather cartridge bag by G. B. Parker; 2nd, 75 shells; 3rd, 50 shells.

No one person may win more than one 1st prize and one 2nd.

Monday night's regular shoot resulted as follows:

Davis 23, Williams 21, Grant 23, Stephenson 21, Brumpton 20, R. L. Gaetz 20, Jas. Mann 20, Plaxton 18, McEwan 14, Parker 15, Westgate 9, Ware 11.

## Rancher Killed in Automobile Accident

Lacombe, Alta., Aug. 12.—Eli B. Proctor, one of the largest farmers in this district, was found dead near his home this morning under his overturned auto. The deceased left for his home, about fifteen miles east, at 7.30 last evening and, after a stop, proceeded to his home after dark. The place where the accident happened is a slight declivity with deep ditches along the sides, and the only solution of the accident is that the steering gear went wrong.

He was well known among the stockmen of this country, and had a large cattle buying business in addition to farming several hundred acres of land. He leaves a wife and three young children. The coroner started for the scene of the accident this morning.

## Bad Smash

A bad smash occurred yesterday morning about seven o'clock in the C.P.R. yards when yard engine number 1313 was run into from the rear by engine number 1413 from the north, pulling a freight train. The tender of 1313 was derailed and the woodwork was badly smashed, but beyond that no damage was done, both engines getting out with no damage. Traffic was tied up for a few hours, one or two trains carrying stock to the Edmonton fair being delayed. The track was cleared by eleven o'clock.

## Bad Accident at Didsbury

A bad accident happened at Didsbury last Thursday by which Frank Roy lost his right leg. A freight train was moving in the yard and Roy went to jump on the engine and missing the step, he rolled under the wheels, which went over his right leg crushing the knee. He was rushed to the hospital here, where it was found necessary to amputate the limb. The operation was successfully performed by Doctors (Farr and McKenzie, and we are glad to say the injured man is now making satisfactory progress.

Dr. Parsons went to Edmonton on Monday to attend the convention of the Alberta Physicians' Association.

Dr. J. Hargrave, head of the Health of Animals branch for Alberta, was a passenger on Tuesday's noon train on his way to the Edmonton fair.

A. A. MCGILLIVRAY

Conservative Candidate For The Red Deer Federal Constituency.

## Dr. Clark's Meeting

Dr. M. Clark addressed a meeting in the Lyric Saturday evening last, there being a good attendance. Mayor R. B. Welliver occupied the chair as president of the Liberal association. What the doctor addressed a meeting for nobody knew. He is not the representative of the Liberal party now, and will not be until he is nominated. Perhaps he desired to inform his party he was again a candidate for political honors. He will not even be selected as the Liberal candidate on Friday if a large section of the party can have their way. His address was erratic and chancelled. At times eloquent, then verging on the ridiculous. His jokes were numerous and his funny moods were enjoyed by the good natured crowd immensely. The News came in for a goodly share of free advertising. Of course, Mr. Borden couldn't possibly do anything right, and Sir Wilfrid Laurier couldn't do anything wrong. Mr. Borden, he inferred, was a supercilious, egotistical kind of a gentleman, much to the horror and surprise of Chairman Welliver, who said in his civic address to the same gentleman, only a few weeks ago, that he was manly, outgoing, self-sacrificing, loyal to duty under all circumstances, and a man who was not serving his country for "monetary consideration." If some one had treated the doctor to a bottle of ginger pop he couldn't have had more fizz than he had.

The meeting dispersed with cheers for Laurier, Clark and the News, and God Save the King.

## President McKenzie Forecasts Defeat

In an interview at Chicago on Wednesday Sir Wm. McKenzie, President of the C.N.R., stated that he thought Canadian reciprocity was a doubtful issue. "Reciprocity is being fought to a finish in Canada," he said, "and the outcome is problematic." The idea of annexation has become so strongly attached to the treaty proposal that its defeat is highly probable.

## Correspondence

To Editor of Red Deer News.

Dear Sir,—I notice the Red Deer Advocate, under the heading Conservative Nominee and Policy, is questioning whether the supporters of Mr. Root in the campaign of 1908 were loyal or disloyal. Now, sir, it appears that after the way the Advocate pool pooled Mr. Root for the stand he was taking three years ago, it had better crawl into its hole and go to sleep, or be quiet. If Canada had been in the position three years ago as it is today, and Mr. Root had advocated reciprocity, he would not have been the Conservative candidate, nor would Mr. Root have advocated what he did then. Three years ago has made a vast difference, and prices for all farm produce are higher, especially cattle, and what was needed then is not needed now. I remember that Mr. Root advocated free rural mail delivery. The Advocate and the Liberals said it was impossible, but before the election was called free rural mail delivery was a fact. I am, with others, anxious to hear what Dr. Clark has to say about what Mr. Root advocated during the last campaign. I think he will have to swallow his own words or leave Mr. Root severely alone. The Advocate is so inconsistent in its paid arguments that it has no respect for what it does say, and I am not surprised that it should now quote Mr. Root after having laughed at his arguments in 1908.

Thank you, Mr. Editor.

I remain, yours truly,

ROBT. C. PARKER.

## Sudden Death

Dr. George, coroner, called an inquest on Monday afternoon to inquire into the death of Matthew Edward Gilmour, who died suddenly on Monday morning in room twenty-two at the Arlington Hotel. The jury were as follows: Jas. Youmans, J. Hutton, L. Porter, S. Wilson, P. Pidgeon, J. Mann, Mr. Youmans, was chosen foreman. Deceased came up from Calgary on Friday with William Edward Booth, who was with him continually all the time he was in Red Deer, and occupied the same bed at the Arlington. Booth tried his best to get deceased to see a doctor as he knew him to be suffering badly from dropsy, but was unable to do so. Dr. Gray, who conducted the postmortem, stated that although deceased had taken a few drinks, alcohol had nothing to do with him going off so suddenly, as two of the arteries near the heart were stopped up by blood clots and death was due to asphyxiation. The jury brought in a verdict to the effect that "Deceased came to the death on the 14th day of August, 1911, at the Arlington hotel, from asphyxiation, caused by apoplexy of the arteries and other diseased organs, according to medical evidence."

## Game Regulations. Open Season.

Mountain Sheep and Goats, Sept. 1st to October 15th, 2 males only, Antelope, all of October, 2 males only.

Deer, Moose and Caribou, November 1st to December 15th, 1 male not less than 1 year old.

Resident, big game, \$2.50; birds, \$1.25.

Farmer—Big game, \$1.00.

Non-resident—Birds, \$5.00; general, \$25.00.

A farmer living on his lands does not require a license to shoot game birds in season.

You can secure a license from Capt. Cottingham, Court House Building, Red Deer.

## Wedding Bells

A quiet but pretty wedding was performed Tuesday morning, Aug. 15th, when two of Red Deer's most popular young people, in the persons of Joseph Carlyle Brumpton, son of Mr. and Mrs. R. C. Brumpton, and Miss Edna, daughter of A. H. Lund, of Pine Lake, were united in the holy bond of matrimony. The wedding took place at the residence of Mrs. Petepeter, sister of the bride, with only the immediate relatives of both parties present, including Mrs. W. J. Brumpton, of Moorfield, Ont., sister of Mrs. Brumpton. The ceremony was performed by the Rev. Robt. Pearson, and the happy couple left by the noon train for Calgary, where they will spend a few days, after which they will return to Red Deer for a short time, preparatory to leaving for Nanaimo, B.C., where "Joe" as he is familiarly called, will go into the gent's furnishing business. Joe will be sadly missed in Red Deer, as an old timer, and a young man who has always been interested in hockey, football and all other sports. He was an active member of the Light Horse and a splendid rider. Miss Lund, as one of our most charming young ladies, will also be missed. The News extends to the young people the best wishes for a long and happy life.

## Standard V. Examinations

The following is the results of the examinations for Standard V:

Standard V, to Grade 9.

Vera Allord, Johanna Bertherson, Edwin Brooks, Mary Fleming, Ettie Foster, John Gaetz, Fred George, Dia Goodman, Gladys Greening, Gertrude Hall, Howard Hall, Rose Hill, Margaret Jonasson, Myrtle London, Ray Meeres, William McIlwraith, Violet Nurcombe, Annie Springbett, Clifford Springbett, Adna Sproutie, Gordon Stone, Charles Weston, Emma Clark, James Krause.

Standard V, to Grade 10.

Annie Black, Colvin Hadsey, Florence Honski, Frances Pearson.

In Standard V, 27 out of 25 passed—another notable record.

## BIRTHS.

In Red Deer, on Saturday, Aug. 12th, to Mr. and Mrs. R. B. Welliver, a daughter.

In Red Deer, on Saturday, Aug. 12th, to Mr. and Mrs. Walter Trump, a son.

Vincent and "Little" Jim McConnell were week end visitors at Edmonton.

### A Farmer on Reciprocity

The Editor, The News, Red Deer.

Dear Sir,—Would you kindly permit me through your columns to suggest that in the forthcoming elections every voter, farmers in particular, should see that they go into this matter of reciprocity with a clear view of what it means to them individually and also to the Dominion in general.

So much has been discussed for and against it in the various editorials of the leading party papers, that an unbiased view is hard to get, but at least one thing is clear—it will either help or injure our fair country of Canada, and the query is, which will it do.

The farmers have been told, by those to whose interest it is to have the farmers think as they do, that the reciprocity pact is going to help them most wonderfully in securing for them a large market with higher prices for their grain, and a great reduction in the net price to them of the farm machinery.

A careful study of the schedule does not show me any great gain to the farmers re. the machinery duty. It amounts to a reduction upon general farm implements of 25 per cent. to 5 per cent.; this would work out to about \$3.00 on binders and \$1.50 to \$2.25 on ploughs, and hay rakes about 50¢ to 80¢. Not a very great gain I think, but every little helps we are told. As regards the wheat duty, if I am correct, and I believe I am, the United States put their duty on 25¢ per bushel on wheat, and in order to take it off, demanded and received compensation in the way of having Canada take of certain duties from manufactured articles, which their manufacturers are capable of putting on the market here cheaper than our factories can place them.

If the United States wanted our wheat so badly, why did they not take off the duty long ago? The reason is that it did not suit them to do so.

I believe sincerely that free trade in some things would be alright, but on such a large scale as has been drawn up by the present government it would be most injurious to the country.

If free trade is extended as proposed, what will be the effects to the Ontario and B. C. fruit grower, to the hundreds of little manufacturing interests that are helping our Western towns to spring to the front.

Is it possible that people cannot see the harm of free trade between a nation in its youth of some 8,000,000 souls, and a grown up nation of some 90,000,000? Free trade will mean a dumping ground in Canada for the surplus stock of the U. S. factories, compelling our factories to close up, and by doing so shutting off our own home markets, and compel-

ling us to be at the mercy of the trusts and combines of that country. Then the final outcome would be that, according to the reciprocity agreement, whenever the U. S. thought the time was fit to raise their duties, and this would be when our industries were crippled, they would put on the screw and we would pay the piper. No, sir, I would earnestly request, before this question is solved and voted on, let every man think deeply then act, and do not forget the old fable of the Camel and the Tailor.

I must thank you for your courtesy, dear sir, in allowing me to present my views; they may not be all correct, but they are what I believe in.

Yours sincerely,  
T. LARER,  
Treville.

### A Bad Sign

If Your Hair Falls Out When Comb-  
ing the Hair.

Falling hair means that the roots of the hair need strengthening; they need a tonic and they ought to have it, mightily quick.

If you will go to Gaetz-Cornett Drug & Book Co., they will sell you a large bottle of hair tonic for 50¢, that is guaranteed to stop falling hair and itching of the scalp and cure dandruff in two weeks or money back.

The name of this almost magical preparation is Parisian Sage, and it can now be obtained in nearly every town of importance in Canada.

Beautiful women in the metropolis are large users of Parisian Sage, because they have learned that it makes and keeps the hair soft, beautiful, lustrous and luxuriant. Parisian Sage is not sticky or greasy, and is the most delightful hair dressing in the world. Fifty cents at the Gaetz-Cornett Drug & Book Store, or direct, all charges prepaid by the Canadian makers, the Giroux Mfg. Co., Fort Erie, Ont.

### No Standing Offer

The very first paragraph of Sir Wilfrid Laurier's address to the Canadian people, if not a deliberate mis-statement, is at least calculated to give an entirely erroneous impression of the facts. The paragraph reads as follows:

"At all times during the last forty years, it has been the constant effort of all political parties in Canada to make with the United States an arrangement for the free exchange of natural products between the two countries."

This is not the case. We know, not only from Mr. Bryce's inadequate letter written to the foreign office on January 10, but also from the state-

ment made by Mr. Taft after the agreement had been signed, that the commissioners for the United States had been instructed to offer absolute free trade as the terms of the compact.

If the Commissioners of the States offered absolute free trade, it rested with the representatives of Canada to say how far they would go in this direction. If the Laurier party had made the "constant effort" of which Sir Wilfrid speaks, why did they not accept absolute free trade in all natural products?

Was the "constant effort" mitigated by electoral conditions; or was the "white plume" too firmly grasped by powerful interests? Again, after the termination of the Elgin-Marcy treaty, there followed what is known as the National Policy, developing trade between the various provinces of the Dominion, but all this time an offer lay open to the United States to renew some form of reciprocal arrangement. It was not until Sir John Macdonald's government went out of power that Sir Wilfrid Laurier, on assuming office, withdrew from the statute book the reciprocity with the United States.

Did this show a "constant effort" to make with the States an arrangement for the free exchange of natural products?

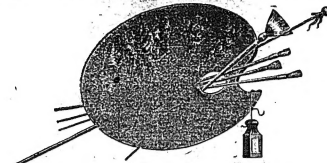

This action was taken by Sir Wilfrid's government in 1897, and in May of the same year, speaking at the Colonial Conference, Sir Wilfrid Laurier said: "There is no boundary line except a purely conventional one over the whole territory of North America. Their habits are the same as ours, and therefore we are induced to trade, and cannot help it, by force of nature, but so far as legislation can influence trade, we have done everything possible to push our trade towards the British people, and against the American people."

Does this show a "constant effort" to establish free trade with the United States in all natural products?

Sir Wilfrid Laurier might have paid a higher tribute to the Canadian electorate than to presume that they are, and always have been, absolutely ignorant of current affairs. The first paragraph of his address is contrary to fact. Sir Wilfrid has, in the past, turned his back on American trade more than any other statesman in Canada. His own deeds and his own words prove this, and his sudden flirtation with Uncle Sam can only be regarded as the outcome of electoral fears, and possibly a desire to draw a red herring across the trail of the American who would otherwise have figured so largely at the next election.—Toronto World.

EVARTS POST OFFICE

160 Acres of good and comparatively level land. The soil is a black sandy loam with a clay sub-soil, not a particle of waste or alkali on the quarter. 30 acres fenced with two wires and tamarac posts. 30 acres under cultivation and in crop. 3 miles from the C.N.R. graded line, 3 1/2 from the new townsite. Price \$10.50 per acre, i.e., if sold within the next 60 days. \$500 down, balance any old way. Did you ever see such a thing in your life?

160 Acres, all fenced and cross-fenced, 3 wires, tamarac and willow posts, all in good shape. About \$1000 worth of up-to-date Buildings. 30 acres in crop. The soil is away ahead of anything I ever saw—and it was Antony not Brutus that said so. Good water and plenty of it. Come and see for yourself. Half mile from schoolhouse, same distance from the C.N.R. graded line, 3 miles of new townsite, Sylvan Lake. \$20.00 per acre, half cash, balance to suit.

I have quite a number of FARMS FOR SALE, and the Editor is very kind, but when a question of space arises his quills are out, and he resembles the frolic porcupine right away.

We have TWO GENERAL STORES, each with Post Office attached, doing a good trade. No opposition and both pulling the string.

We have all kinds of SWAPS, great and small—but it's the EARTH we sell, and furnish the money to pay for the same. Come right out to 18-581, half way between Burnt Lake and Earls. We will show you round—a rig is kept for that purpose. And it makes no difference whether you buy or not, the showing round will not cost you one cent.

## A STRONG CANDIDATE

McGillivray Will Win

The Calgary Herald, speaking of the nomination of A. A. McGillivray as the candidate of the Conservative party in this riding, says:

### A GOOD MAN.

Widespread satisfaction has been created throughout the province by the announcement, Thursday, that Mr. McGillivray had accepted the nomination and the Conservatives throughout the city are confident that he will win against Dr. Clark, the present Liberal member in the house of commons at Ottawa for the riding of Red Deer. It is generally felt that by Mr. McGillivray's acceptance of the nomination another seat has been assured the Conservative party in the house at Ottawa.

### SUCCESSFUL CONVENTION.

The convention which chose Mr. McGillivray as standard bearer for the Conservative party in the riding of Red Deer was very largely attended and was one of the most representative conventions ever held in the west.

The meeting was decidedly optimistic and the feeling that never before was there a chance of winning the election better than at the present time.

Every town within the district along the line of the C. & E. was represented and delegates from centres along the Lacombe branch and the outlying districts were present.

Stirring addresses were delivered by a number of the visitors. The leader of the Conservative party in this province, Mr. Mendenhall, aroused the gathering to a high pitch of enthusiasm when he dwelt on the objectionable features of the reciprocity pact and declared that he was prepared to fight it to a finish and to support the nominee of his constituency to the utmost of his abilities.

BORN IN LONDON.

A. A. McGillivray was born in London, Ont., on February 12, 1884, but while still an infant removed with his parents to Richmond, Que., where he received his early education. He matriculated at McGill University at Richmond, and subsequently went to Montreal to pursue his studies with a view ultimately to come west and practice law. On graduation from McGill he went to Dalhousie University where he graduated with the degree of LL.B.

Then he came west and entered practice at Stettler, where he formed a partnership, the well known firm of McGillivray and Robertson. He remained in Stettler until a year ago, when he came to Calgary to conduct the office which his firm had opened here, while his partner, W. C. Robertson, remained in Stettler to look after the firm's interests there.

### IS VERY POPULAR.

Not only is A. A. McGillivray looked upon as one of the brightest lawyers and practical law in the province, but he is exceedingly popular. Throughout the entire Red Deer riding he is well known and very well liked. This morning on his long distance telephone wires between Stettler, Red Deer and other points in the riding which he has been called to contest were kept busy by his advisers who kept calling and urging him to accept and assuring him of their support. Many of those who have promised to be his supporters and have pledged themselves to work unflinchingly in his behalf have been hitherto prominently identified with Liberalism.

## ALBERTA OSTEOPATHS' ASSOCIATION FORMED

Dr. Church President

The Alberta Osteopaths' association was formally organized at a meeting held in Calgary on Sunday, the 5th, which concluded with a banquet in the Calgary dining parlors in the evening, at which Miss Dr. McKinnon, of Los Angeles, who was passing through Calgary on her way home from attending the National Convention of Osteopaths at Chicago, was the guest of honor.

There are now twelve practicing Osteopaths in this province, all of whom attended the meeting held here and registered as members of the association. The meetings were held at the offices of Drs. Sage and Walker in the Alberta block, and several matters of interest to the profession were brought up and discussed, following which the articles of the association were drawn up and the following officers elected:

President—Dr. M. E. Church, Calgary.

Vice-President—Dr. R. C. Ghosly, Edmonton.

Secretary—Treasurer—Dr. L. N. Sage, Calgary.

Assistant sec-treas.—Dr. H. E. Walker, Calgary.

It was decided to hold two meetings of the association each year, the first to be held in Calgary in August of each year, and the second in Edmonton in March.

At the banquet in the evening Dr. McKinnon gave an interesting address on the work done at the national convention, and talks were also given by other members of the newly formed association, which promises to grow very strong, as the members have received word of other osteopaths who are coming to locate in Alberta in the near future.

The association was formed for the purpose of social benefit and professional advantage to the profession, and the new members are enthusiastic at the result of their organization meeting.

Among those who attended the banquet and meetings in Calgary were Dr. R. C. Ghosly, Dr. W. H. Albright and Dr. C. V. McNeal, of Edmonton; Dr. E. D. Plummer, of Red Deer; Dr. L. B. Mason, of Lethbridge; Dr. S. V. Detweiler, of Medicine Hat, and Drs. M. E. Church, N. Sage and H. E. Walker, of Calgary.

Dr. McKinnon, of Los Angeles, only arrived in the city in time for the banquet in the evening.

## A TERRIBLE EXPERIENCE

T. A. Gaetz has the name of being very good to his employees, and when he suggested to two of the boys last week that good sport was to be had with a rod and line at the mouth of the creek, they took him at his word and went. One was a canny Scot and the other was French, so we will call them Sandy and Jules. Sport was a little slow, and when they heard a splash up the creek they quickly turned to see what it was. Sandy was badly frightened and clutched Jules arm, telling him evsars of the "terrible beastie," while Jules maintained it was a "Beavair" because he had seen the broad tail which it used for a towel when plastering its house. They were still too frightened to move when a passerby explained that it was a muskrat and was harmless, but they persisted in their company them to the street before they felt entirely safe, and they have vowed not to fish again. What the reason for their being so scared had the "Beastie" been a badger instead of a muskrat may be better imagined than described.

Pupils coming to the High School for the fall are already enquiring for accommodation, and anyone having need of help in the housework or only needing company would do well to communicate with Principal McKenzie.

## J. WOOD, The Tinsmith

Wishes to announce to the people of Red Deer and surrounding country that he has no connection whatever with the Day Hardware Co., and also to let them know that he is to be found at No. 112, Gaetz Ave., just across from Lord's big store, and next door to Manning's harness shop; where he is prepared to do any and all kinds of Tinsmith work on short notice.

It will pay you to call and get prices on my home made Tinware and compare them with what you have to pay for the light-weight factory-made stuff sold at other places. I also have in stock a line of Kemp's Enamelled Ware, consisting of Kneading Pans, Preserving Kettles, Fruit Funnels, etc., (just the thing for filling sales with fruit.) These will be sold cheap.

## FURNACES, STOVES & RANGES

I have the sole agency for this district for Stewart's Good Cheer Furnaces, with the circular waste pan. Call and see them for yourself and be convinced that they are just a little the best thing in the Hot Air heating line on the market to-day.

I also have the agency for the Record Foundry Co's Stoves and Ranges, and have in stock the following, and the prices are right, as you will see by this list:

No. 9-18 Reliable 6 hole Range, reservoir and high closet	\$45.00
No. 13 Ideal Oak Heater	9.00
No. 15 " " " "	12.00
No. 17 " " " "	14.00
No. 139 Fancy Airtight Heater	10.00
No. 121 Plain " "	4.00
No. 122 " " " "	4.50

ADVERTISING RATES ON APPLICATION

WEDNESDAY, AUGUST 16th, 1911.

HALF A LOAF ONLY.

At last Sir Wilfrid Laurier has recognized the principle that the three Western Provinces are entitled to their natural resources the same as other provinces of the Dominion.

This on the eve of a general election when his government is tottering on the brink of oblivion.

This in the face of the rank and file of Western Liberals who have since 1905 claimed we were not entitled to our resources.

What will the Advocate, that has always stood by the government in robbing the west of our just rights, say now?

The splendid stand taken by the Toronto News and other Eastern papers for the past six years in defence of our rights is now vindicated.

How can the people of the West for one moment tolerate a party that by its own death bed confession acknowledges it has robbed the electorate of their just rights for six long years?

Not only that, but in the face of this acknowledgement of our rights, Annapolis lake, the lands are retained by the Dominion Government.

The Government has no more right to our lands than it has to our minerals, our timber, our waters, our fish, our air.

R. L. Borden has said we are entitled to our lands and all our resources, and he will give them to us if he is returned to power.

Vote for McGillivray on Sept. 21st and our lands and resources. It is time for a change.

OTHER THINGS THAN RECIPROCITY TO THINK OVER

Liberal journals are very anxious that only one plank shall be discussed at this election, and that plank must be reciprocity.

There are others. For instance:

The Oliver scandal.

The Farmers' Bank scandal.

The Georgian Bay canal scandal.

The Yukon scandals.

The Marine Department scandals.

The public lands scandals.

The overclassification scandals.

Pugsley and the dredging scandals.

The Printing Bureau scandals.

And many other too numerous to mention, as the sale bill says.

True Aylesworth, Brodeur and Sir Fred Borden are rushing for the tall timber, but the remainder of the bunch should be compelled to walk the plank.

The time has at last come for the people of Canada to speak out, and to consign of the times all point to a clean sweep throughout the entire Dominion on Sept. 21st.

It is time for a change.

THE GAME AND THE ROOTERS.

Speaking of reciprocity, the Syracuse Herald remarks:

"The fence between this country and Canada is so loaded with American rooters for Mr. Laurier at present that it may need a few extra braces to keep it from falling down flat."

The figure is an apt one. For it gives a picture of the great game that is now being played in Canada between the Continentals and the

1896, and they look confidently forward to shipping a number in to Edmonton while the Liberals mix it up together. At this stage in the fight it is impossible to forecast the winner.

## FACTS ABOUT OUR MARKETS.

(From the Galt Reporter.)

The old fable about the dog with the piece of meat in his mouth, jumping into the water after a shadow and in the end losing the good morsel he had at first, may be applied very aptly to the country which has splendid markets at home, but becomes discontented, and although not half realizing its natural heritage, looks abroad for trade it knows not of. Such is the position in which some people would place Canada in her present relations with the United States. But the facts do not warrant Canada looking away from her home market.

The home market is taking eight per cent. of the produce of the Canadian farms at good prices.

The demand of this market is increasing, and it will continue to increase as the country grows.

It has the advantage of nearness, stability, cheapness of transportation and quickness of returns.

The Canadian farmer is familiar with its traditions and requirements.

And yet, withal, the Canadian farmer is inclined to look beyond this market with longing eyes to the market of the United States, forgetting, perhaps, that the United States farmer is looking with just as longing eyes at the Canadian market.

There are at least twelve farmers in the United States looking longingly at the Canadian market to one farmer in Canada looking at the United States market.

Let us remember that there are at least twelve times as many farmers in the United States as there are in Canada, and so, while one Canadian farmer will get entrance into the market of the United States, twelve American farmers will get entrance into our home markets. They have already succeeded in selling immense quantities of farm products in Canada, in spite of the duty. They have sold twice as much in Canada as Canadian farmers have sold in the United States.

With reciprocity in farm products the twelve American farmers will crowd the one Canadian farmer pretty closely in his own home market.

The surplus production of the United States farmer would be liable at any time to demoralize the home market of the Canadian farmer.

It will cost the American farmer no more to bring his farm products to Canadian cities and towns than it will cost the Canadian farmer to carry his to the United States.

These American products are pretty well kept out now by the tariff wall. With this removed they will enter twelve to one.

We must remember, too, that the Americans have the earlier season,

and that their products will therefore be upon our markets, before our products are saleable and get the early price.

## EDITORIAL NOTES.

Vote for McGillivray and Canada for the Canadian.

It keeps the Albertans busy these days publishing the pictures of the Ministers who are retiring from the Cabinet. They will all take a walk on the 21st.

Unadulterated Socialism is what Dr. Clark called the demand of the U.F.A. for terminal elevators. Farmers should remember this when they come to vote.

It looks as though Sir Wilfrid and his Quebec bunch have given Hon. Frank Oliver the cold shake, and instead handling the portfolio of the Interior Department over to Hon. Walter Scott of Saskatchewan.

When the question of terminal elevators was before the House Dr. Clark inferred the farmers were a bunch of Socialists to introduce such an idea, and he opposed it. Now he will, no doubt, swallow his words.

Dr. Clark said "Red Deer has a member who can travel from the Atlantic to the Pacific and preach the same policy." Perhaps. But any idiot can do that. Dr. Clark does not represent any Canadian policy or party. Dr. Clark is a joke.

The sheep farmer of Alberta will be ruined if reciprocity comes in force. Dr. M. Clark and Hon. Frank Oliver say they deserve to be ruined if they cannot compete with Australia and the United States. Vote for McGillivray and Canada for the Canadian.

Dr. Clark's sneering reference to the old flag, Saturday night, was strongly resented by Englishmen present. "It was only a piece of cloth," etc. Correct. But that grand old piece of bunting, although shot to tatters, is in the eyes of the loyal subject:

The flag that lights the sailor on his way;  
The flag that fills all its folds with dismay;  
The flag that always has carried the day—  
The Union Jack of Old England.

Dr. Clark said, Saturday night, Englishmen were poor farmers, and it took about four years for them to learn to milk a cow. This is a gratuitous insult to one of the best classes of settlers we have, and should be strongly resented. The speaker said he knew because he was not much of a farmer himself. All English farmers are not doctors; if they were we would strongly advocate free transportation for the bunch back to the Old Country as they would be no good here.

## Furniture Special Priced for August

UNEEDA KITCHEN KABINET

A Kitchen Cabinet is something every housekeeper needs and ought to have.

It is inexpensive, neat in appearance, and so convenient that when once used it is almost impossible to keep house without one.

The Top of this Cabinet is fitted with four nice Cupboards with stained glass doors, one of which contains a Mirror, a Sugar Bin, three small Drawers and nine large Tin Canisters.

The Base has one large Zinc lined Bin for the flour, two large drawers for towels, etc., and a drawer for the cutlery, a large Cupboard for cooking utensils, and six small tins for spices.

The Top has a nice Zinc Cover, full size, with a large Extension Shelf on one end.

This makes a very complete Pantry in itself, and is much more convenient, as everything is just where you need it most.

We stock this Cabinet in two different finishes, both Natural and Golden Oak Finish.

It's a Bargain at \$25.00.

## BEST BROS.

NO. 51 FIRST ST. SOUTH RED DEER

"I therefore need scarcely state my firm belief, that the prosperity of Canada depends upon its permanent connection with the Mother Country, and that I shall resist to the utmost any attempt from whatever quarter it may come which may tend to weaken that union."—From Sir John Macdonald's first electoral address.

## Socialists Select Candidate for Red Deer Constituency.

(Contributed)

Sam Welch, of Bowden, will be the candidate of the Socialist party in the Red Deer constituency in the coming federal election. He was formerly nominated at a convention of the party held recently at Markerville. His candidature has since been endorsed by the various locals and supporters of the party throughout the riding. Mr. Welch is an active farmer and rancher. He is not a new man in the political arena, having contested the Olds constituency against Hon. Duncan Marshall, upon the latter entering the cabinet. While the Socialist party has no machine, and no kind other than what its member contribute, they are entering the campaign well united and confident of rolling up a very substantial vote. There will be some good speaking material and plenty of literature in defence and support of their views. Their policy will be one of education of the electorate in accordance with the principles of Socialism, which work is continuous and carried on irrespective of the results of electoral campaigns.

A series of meetings throughout the riding will be arranged for and announced later.

H. E. Brabecombe, of Olds, has been elected general secretary for the campaign and treasurer of party funds. The latter spent Sunday in Red Deer, convening with representatives of this part of the riding.

## Eckville

For the first time since taking over the mail carrying contract, A. C. Foster was off schedule last week. He says the roads are the worst ever in spite of the work done this year.

W. Gaskarth in Red Deer last week to meet his brother-in-law from England.

Chas. Kasper, president of the local U.F.A., had the misfortune to be burned out last Thursday. Nothing was saved, as Mr. Kasper was away from home at the time. Mrs. Kasper and the children has a narrow escape. The building was partly covered by insurance.

Mr. Grant is due to hold service here next Sunday.

WANTED, AT ONCE.—Good strong boy to learn the plumbing business. Apply Day Hardware Co., Red Deer. Aug. 2.

WANTED.—Gentleman roomer wanted by family in south end of town. Apply at News Office. Aug. 2

FOR SALE.—Registered Shropshire Ram. Splendid individual. Reserve champion at Calgary fair as a two-year-old. Will sell cheap if taken away by August 15th.—H. Raikes, Pine Lake P.O. Aug. 2, 3v.

FINAL WARNING. After this date all persons keeping dogs without a license will be prosecuted and fined according to the by-law.

CHAS. ANDERSON, Chief of Police.

## TOWN COUNCIL

The regular meeting of the Town Council was held on Thursday evening last, with all the members present, and His Worship Mayor Waller in the chair.

### CORRESPONDENCE.

The Pacific Coast Association of Fire Chiefs notified the Council of the annual meeting in Vancouver on Sept. 11 and following days, and asked that the Council send our Chief there to take part in the proceedings. Filed.

R. G. Dingman, managing editor of the Financial Post, wrote the Council that he had presented the town's by-laws to Mr. Clark, of Clark, Doves & Swaby, of Toronto, for approval. An answer will be forwarded in a few days. Filed.

Wm. Speirs wrote the Council protesting against the laying of the sidewalk in front of his barn on Mann Street upon the proposed grade, claiming it will render his present stable useless for the business in which he is engaged, and stating he will be compelled to ask the Council to make good any loss he may sustain.

Considerable discussion took place on the letter from Mr. Speirs, and the Commissioners will consult further with the solicitors as to what course it will be wise to pursue.

### COMMISSIONERS' REPORT.

The Commissioners brought in the following report: The debentures sold some months ago to the Dominion Securities Corporation have been extended and sent to Toronto for delivery to them. In a few days the deal should be completed. We submit herewith certificates as to the destruction of the debentures executed previously, the form of which was objected to by the company solicitors.

Pasaut to your instructions, ... copy of the resolution re. closing of Mann St. by the C.N.R. was wired to Mr. McLeod next day. He was also requested to forward a map showing the route through the Town. No communication has been received from the Company since their representatives met the Council.

The Mayor received a letter from H. Thornton Bolt re. an advertising scheme. As the Board of Trade has taken charge of all work of this kind the letter was turned over to the Secretary.

The heavy rains recently have retarded progress on works under construction. The sewer to the hospital will take about two weeks to complete. We have requested the Hospital Board to arrange for the cement for right of way now so that there will be no delay in getting that. When this sewer is completed we will commence putting in the duplicate watermain from the power house to Gaetz Ave., material for which is on hand now. At the same time we will try to put in some of the short extensions contemplated. As soon as the material for the septo tank arrives we will have to commence work on it, as it is principally

concrete work. We submit herewith statement of receipts and disbursements for July. We submit accounts for your authorization to pay.

The Mayor regretted to learn that the Ladies' College was not going on this fall. Owing to being unable to complete the building, the directors concluded to only make a start this fall and start early in the spring, and have the school open in time for the September term. The only loss to the Town would be the interest on the investment of waterworks to spring.

Councillor Malcolm explained that the basement would probably be built this fall and work would be pushed as soon as winter was over. The report was adopted.

### ACCOUNTS.

The following accounts were passed: R. Taylor, \$11.22; wage sheet No. 2, \$9.34; Canadian Pacific Railway, \$1.05; L. Riggere, \$11.55; Niagara Falls Stamping Works, \$4.58; Alberta Pacific Elevator Co., \$1.40; A. S. Carr, \$5.75; Gaetz-Cornett Co., \$3.95; W. Springbett, \$5.00; S. E. Putnam, \$4.80; Cushing Bros., \$81.21; T. A. Gaetz, \$27.55; Western General Electric Co., \$14.18; A. McFee, \$15.00; J. Dunn, \$184.00; Canadian Pacific Railway, \$177.00; Merchants Bank, \$392.33; A. Peterson, \$7.70; Merchants Bank, \$923.89; A. W. Pead, \$20.50; Steam Laundry, \$2.88; General Supplies Ltd., \$399.10; Day Hardware Co., \$71.20; Firemen's pay sheet, \$126.80; G. B. Parker, \$3.80; J. W. Broughton, \$3.40; Smith & Co., \$56.10; Forrester & Cruickshank, \$3.50; Pidgeon & Chapman, \$90.00; McElrath & Co., \$32.05.

Clara Stone addressed the Council, asking the privilege of having a key to the gate of the cemetery for the purpose of putting in a rough box and fence.

Councillor Gaetz thought that was a matter for the Commissioners to deal with.

Mr. Stone claimed he had asked the Commissioners for a key and had been refused.

Commissioner Stephenson said he had not refused the key to him. Mr. Stone acknowledged the commissioners had offered him a key afterwards.

Commissioner Stephenson would like to have the whole question taken up. He contended it was not advisable to have Mr. Halstead there all the time, and notice was not given by Mr. Stone in time to have graves dug sometimes, and he thought this should be done. The gate was locked to keep people from driving over graves.

The Mayor said there was no necessity to have any trouble about this matter. If Mr. Halstead was approached in a proper manner he felt there would be no difficulty in this matter.

Mr. Stone thanked the Council, and said he would get everything could be arranged amicably.

Councillor H. H. Gaetz was appointed acting Mayor during the absence of Mayor Waller and A. G. Ayres was appointed acting Secretary

Treasurer doing the absence of Secretary Treasurer Stephenson.

Councillors (Menties and Gaetz) moved that, pending the sale of debentures, the issuing of which has been authorized by the ratepayers, the Mayor and Secretary Treasurer be and are hereby authorized to borrow from the Merchants Bank by way of overdraft or otherwise a sum not exceeding the amount of the debentures.

The Mayor and Secretary Treasurer certified to the destruction of debentures amounting to \$74,467.19, the former of which were declared illegal by A. Bruce, K.C.

The Mayor said Mrs. Postill had refused to sign off for the property purchased from the estate of Mr. Postill next the fire hall. The property was purchased and money paid over, but vouchers could not be found. He hoped these vouchers would be found. If they were, he thought there would be no more trouble. The Town paid off the mortgage on the property. The cost of the property was about \$400.

The Mayor said Mr. Bower and Mr. Warner, members of the Executive of the U.F.A., waited on the commissioners a few days ago and asked what they thought of holding the next provincial meeting of the association in Red Deer. About 500 would be present, and they desired to know if accommodation could be secured. He would like to do all he could to accommodate the association, but, first, there was not hotel accommodation, and, secondly, there was no hall large enough to accommodate them. By winter there might be a bigger hall.

The Commissioners will take up the question and investigate the possibilities of the Town with the Board of Trade. Council adjourned at 10 o'clock.

That limp that J. Halstead and a few of the "City Fathers" had last week was caused by our reporter having trodden on their corns by calling the town gardens near the station the "C.P.R. gardens." This was a bad mistake and the worm has apologized, saying that it was caused by the A.C.R. and the C.N.R. both denying knowledge of it.

### Asaya-Neurall

THE NEW REMEDY FOR Nervous Exhaustion. Heredity is one of the main causes of nervous exhaustion. Children whose minds give way in school, girls lacking in nerve stamina, and young men exhausted by ordinary business cares, prove this. Occasional treatment with "ASAYA-NEURALL" is their salvation. It feeds the nerves, induces sleep, improves the appetite and digestion, and restores full nerve power. \$1.50 a bottle. Local agent.

PARKER'S DRUG STORE, Red Deer, Alta.

## Imperfect Kidney Action Causes Rheumatism

Rheumatism with its kindred ailments—Lumbago, Wry Neck, Neuralgia, etc.—usually results from lodgements of uric acid in the joints and muscles. Now the chief function of the kidneys is to properly filter this poison from the blood. Only when they fail to do this is Rheumatism probable. Kidney weakness starts in various ways. A sudden chill, after perspiring freely, sometimes settles in the kidneys—or an unusual strain may cause it. Poisons which should be filtered out of the system are pumped back into the blood, causing Uric Acid, the real cause of Rheumatism, Lumbago, Wry Neck, Neuralgia, etc. In the early stages Nyal's Stone Root Compound will stop it. Will start your kidneys working properly so that the Uric Acid is reabsorbed and eliminated. Away goes your Rheumatism with it. Perhaps these early warning twinges have passed unheeded, and your Rheumatism has become deep seated. Muscles all cramped up in knots as it were. Then you need Nyal's Rheumatic Cure. Ask your own druggist about these remedies. His opinion is worth while.

Sold and guaranteed by  
The Gaetz-Cornett Drug & Book Co., Ltd., and

## A Political Somersault

### Laurier Admits Liberals Were Wrong

Dominion Government Compelled to Admit Conservatives Were Right

(Edmonton Journal.)

Hon. Arthur L. Sifton, premier of this province, has the audacity to return here with the most astounding charge of political front that the history of the Dominion has as yet recorded. He declares that Sir Wilfrid Laurier is now in favor of giving the prairie provinces some of their natural resources. The Liberals in Alberta and Saskatchewan are in power on the direct issue of giving over the natural resources of the two provinces to the Dominion government and accepting bonuses instead. The Conservatives fought the issue tooth and nail. They declared that the provinces would rue the arrangement. But the Liberals came into power and virtually gave the natural resources of the province over to the Dominion government. Those who voted in favor of the arrangement have since sadly regretted the day they accepted the miserable sum granted in lieu of their resources. As a matter of fact, Alberta practically has been bankrupted through the deal.

The real purpose of Premier Sifton going to England this summer was to raise money with which to finance Alberta. Through the kind assistance of his particular brand of railway friends he will return here tomorrow or Saturday with a guarantee of sufficient funds with which to carry on the affairs of the province and finance a railroad project to the north which, under direction from certain quarters, he has promised to lay before the legislature when it meets in November or perhaps earlier.

At Winnipeg, yesterday, Mr. Sifton declared in an interview that provincial autonomy is to be given Alberta. No one was heard of this before Mr. Borden toured the western provinces and frankly declared that when the Conservatives be elected to power at this election the prairie provinces will be given fullest autonomy and full control of their natural resources.

Mr. Sifton himself pool-poohed the idea when it was incidentally introduced into the last session of the legislature of Alberta. He did not take any interest in the idea until the majority of his own party in the legislature clearly showed him that it would be out-voted and have to stand re-election. He fell he did not provide railroad expansion to the north, and get for the province full control of its natural resources. He practically ignored the matter when it was pressed upon his attention in the legislature by Mr. Bramley-Moore. He was not until a solid defeat in his party at present well known about in provincial affairs, did he suggest through his silent aid that he would interest himself in railroad extension and natural resources.

Absolutely nothing more was heard of the idea until, as has been explained, Mr. Borden came west and told the people here that absolute control of their own wealth is their right. When Frank Oliver was here at the time of the famous bow meeting at which he spoke with vigorous language, he deprecated any intention of permitting this province to have control of her resources. But Mr. Sifton has just returned from colloquing with Sir Wilfrid Laurier, and what with Mr. Oliver's singular political and other delusions, and the notorious weakness of the machine-made Liberal party in Alberta ridings, and because of the obvious strong and favorable impression Mr. Borden created through his frank and fearless declarations which showed him again to have been the wisest and most broad minded statesman this northwest has yet seen; because of these political aspects the Liberal government at Ottawa, in conformance with the present premier of Alberta, declares, with tricky opportunism, that it will give a further measure of some sort of control of the natural resources.

It sounds like the declarations to build the Hudson Bay railroad which Sir Wilfrid Laurier and his followers have been making for the last fifteen years. It proves that the Conservatives were right when they fought the autonomy bill. It shows that for political favor the premier of this province is ready to upset the autonomy bill, and that without any consideration for the west, the premier of the Dominion is willing to connive with him in the jugglery. It proves that Mr. Borden has all along been right regarding the autonomy given Alberta, for he also fought it with all his force and intellect.

Yet Premier Sifton with brazen effrontery declares: "Now that it has been recognised by Sir Wilfrid Laurier that the three prairie provinces are entitled to their natural resources, the same as the other provinces of the Dominion, with the single exception of land fairly given to the honest purposes with which land must be retained for free homesteads in Canada, the Dominion government has decided to give the prairie provinces the only question of principle left unsettled, is how much, if any, of the revenue now raised in the prairie provinces of lands, should be cut off, and this will be discussed between the members of the Dominion Cabinet and the provincial premiers as soon as possible after the ministers return from their constituencies, and will doubtless be settled upon a fair basis. This settlement will give to the provinces of Manitoba, Alberta and Saskatchewan all mines, minerals, mineral lands and royalties, all timber and timber lands, and all lands requiring irrigation

and all water and water power covered by the irrigation act."

Nothing officially seems to have been announced by the Dominion government, but Sir Wilfrid Laurier seems to have told more of his mind to the brother of Clifford Sifton than he does to Frank Oliver, the minister of the interior. Says a despatch from Ottawa, dated last night:

"No official statement is forthcoming here tonight as to the revised decision of the federal government to hand over to the prairie provinces the control of their natural resources. It is understood that the negotiations looking to such action have been renewed recently, but so far as can be learned tonight, no definite basis of agreement has yet been arrived at. It is understood here that if any transfer of resources is made to the provinces it will not include land fit for colonization purposes."

## LESLIEVILLE

The C.N.R. railway camp No. 2 moved away from here this week to the Rocky Mountain House district. Canon Hague, of London, Ont., held service at the Leslieville school on Sunday, July 30th. H. Cameron, Mr. J. Ensign and H. McMillan are camping at Sylvan Lake for the time being. Mr. Pettipiece's drive of ties is being taken down to the Medicine river.

Mr. J. A. Shirley, of Toronto, was out in this district this week in the interests of the Temperance and Moral League. J. S. Malcolm and Miss Good were visitors here from the Lake on Tuesday last. Dave Ayscough and Ted Ensign spent Sunday at Sylvan Lake.

## TWO NASTY ACCIDENTS

On Wednesday last week J. L. Ritchie, a foreman employed on the concrete sidewalks, ran a spike through his foot, inflicting a serious wound. We are glad to say no serious results attended. On Thursday, Bob Beattie, also employed on the sidewalks, had the misfortune to fall and dislocate his ankle. He was attended by one of the physicians and is doing well.

## Federal Platform for Orangemen

The Grand Lodge of B.A., at its session last week, unanimously adopted the following platform for the guidance of Orangemen in exercising their franchise in federal elections: "1. The entire separation of Church and State. "2. Opposition to any interference of the Dominion Government with the different Provinces in educational affairs. "3. The resistance of any further special privileges to any section of the population of the Dominion either on account of race or religion, and the elimination of any special privilege which they now possess, except those included in the Confederation act. "4. Opposition to any extension of linguistic privileges beyond those conferred by the British North America Act. "5. The maintenance of British connection and the support of any movement which tends to make closer and more binding the relations between Canada, Newfoundland, and the mother country. "6. A close supervision of all new settlers, and the encouragement of suitable white emigration from the British Isles, the United States, and Northern Europe. "7. A Federal marriage law recognizing the validity of marriages performed by any qualified clergyman of every denomination, or other persons vested by the law with that power; and the enactment of criminal penalties against persons using their influence to separate legally married couples by questioning the validity of marriages performed in accordance with the provisions of this law. "8. Government inspection of all religious, educational, and charitable institutions, and the suppression of the books of all institutions receiving aid from the public treasury."

Have You a Bad Sore? If so, remember these facts—Zam-Buk is by far the most widely used of any ointment for skin diseases, and is so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore? Remember that Zam-Buk is altogether different to the ordinary ointment. Most of these consist of animal fats, and are greasy, and do not keep. Remember that Zam-Buk is altogether different to the ordinary ointment. Most of these consist of animal fats, and are greasy, and do not keep. Remember that Zam-Buk is altogether different to the ordinary ointment. Most of these consist of animal fats, and are greasy, and do not keep.

# Seasonable Sporting Supplies

We welcome the advent of another shooting season, and are as usual well prepared to take care of the business it brings.

## As a Leader for \$25

We are offering the same splendid "Pump" Gun that we had last year, made by the National Arms Co. We bought a few of these last season, we patterned them here before we sold them, and then confidently recommended them to our customers. They made good in the field last fall and as a result we doubled our order this year. The price puts them within everyone's reach \$25.00.

### SINGLE SHOT GUNS

#### No. 100 Our Boys' Special

12 gauge, automatic extractor, 30 inch special steel barrel, choke bored, walnut stock with pistol grip and rubber butt plate, fore-end attached to barrel and fitted with metal point. Top lever, rebounding lock, case hardened frame nicely finished throughout, weight 6 1/2 to 6 3/4 pounds. PRICE \$29.00

#### No. 102 Cannon Breech

12 gauge, automatic ejector, blued steel barrel, choke bored for nitro powder, re-inforced breech and extra heavy lug forged from one solid piece of iron. Plain, oil finished walnut stock, half pistol grip, corrugated rubber butt plate, nickel plated mountings, top snap, rebounding hammer, solid plunger, metal joint folding flush key, take down. This is the best gun we have ever seen for the price, and is imported by us direct from the maker. We have sold them for some years and have been congratulated by the purchasers on their shooting qualities. PRICE each \$12.50

### REPEATING SHOT GUNS

#### Our Leader, As Advertised Above

This is its second year in this district and its good record last season encouraged us to double our order for this year. Price remains unchanged at \$25.00

#### The Winchester "Take Down"

Repeating shotgun is the popular Winchester Model 1897, with a strong, simple, serviceable and handy take-down system applied to it. This gun can be taken apart and put together as easily and quickly as a double barrel shotgun, and can be carried in a Victoria case, packed in a trunk or rolled up in camp bedding. The take-down system used on this gun is similar to the one used on Winchester "take-down" rifles, and which thorough and extensive trials have demonstrated to be an excellent and handy device. The interrupted screw system—a feature found exclusively in Winchester "take-down" rifles—is used on the "take-down" shotgun. This permits the removal of the barrel from the receiver by a one-quarter turn. When taken apart, the stock and action of the gun remain in one piece, and the barrel, magazine, and action slide in another, the last named parts being held together at the breech end by a ring, called the receiver extension. 12 ga., 30in. barrels. PRICE \$28.00

### The Stevens Hammerless Repeating Shotgun No. 520

Barrel, Stevens compressed forged steel. The barrel used in the manufacture of this gun is first compressed and then forged into shape, thus making it as strong as it is possible to make a shotgun barrel. It is finished in black oxide which gives it a beautiful and lasting appearance. The receiver is a solid Drop forging, and in the manipulation of the gun none of the interior parts protrude that usually interfere with the pleasure and safety of shooting a repeating shotgun. This is one of the most valuable features. It has the same black oxide finish as the barrel. The tangs to which the stock is fitted are extra long and add strength to a stock at its weakest point. Shells are ejected from the side which is the most popular method in use, as the shells are ejected away from the shooter. Owing to the simplicity of the take-down, this gun can be taken down and put together quicker than any other repeating shotgun. Time, eight seconds. An examination of this feature will show at a glance its lasting qualities and large wearing surfaces. Ammunition, any standard shell up to 2 1/2 inches in length. 12 ga., only, 30in. barrels. Price \$28

### DOUBLE-BARRELED HAMMERLESS GUNS

No. 104—Our interchangeable machine made 12 ga. shot gun, bar action, rebounding locks, top snap, circular hammers, plain extension rib, case hardened mountings, full checked pistol grip stock and fore-end, steel butt plate, left barrel choke bored, weight seven and a half to eight and a quarter pounds. Price \$10

#### No. 105. Interchangeable Machine Made

12 ga. gun with rebounding locks, top snap, circular hammers, matted extension rib, case hardened mountings, left barrel choke bored, and barrels stamped "Fine Damascus Pattern" and "Warranted Government Test". Weight 7 1/2 to 8 1/2 lbs. Price \$15.00

#### No. 25 Leader Grade.

The Tobin hammer gun, constructed on the same action and frame model of the "Simplex" hammerless pattern, with the same giant cross bolt fastening and compensating fore end joint, easily makes it the superior of any hammer gun ever put on the market. For the shooter who requires the dependable kind that can be relied upon where a gun means business, the Leader grade hammer gun stands first choice. Stocks—Selected walnut, half pistol grip. Length 14 1/2, drop 24 to 34 inches. Barrels—"Trojan" Nitro Steel. 12 gauge, 28, 30, 32 inch; 16 gauge, 26 and 28 inch. Weight 12 gauge 6 1/2 to 8 lbs.; 16 gauge, 6 to 7 lbs. Price \$35.00

### DOUBLE-BARREL HAMMERLESS SHOT GUNS

#### No. 40 Standard Grade

The Standard is a plain, well finished gun with workmanship and quality that distinguishes it as a fine fire-arm in comparison with any arm of the hammerless gun type made. The fitting of the gun is unequalled by any other market within reasonable limits of the price at which we are able to offer it. Stocks—Plain dark imported and selected walnut, full pistol grip. Length 14 1/2, drop 24 to 34 inches. Barrels—"Trojan" Nitro Steel. 12 gauge, 28, 30, 32 inch; 16 gauge, 26 and 28 inch. Weight 12 gauge 6 1/2 to 8 lbs.; 16 gauge, 6 to 7 lbs. Price \$35.00

**Ammunition:** On the 8th. inst we took into stock 13,000 field loads of Eley's Cartridges and 34,500 loads of the Dominion Cartridge Co.'s Sovereign loaded shells. The latter are all loaded with Dupont Smokeless powder and have been tried and tested from ocean to ocean. We guarantee them all to be fresh loads and recommend them to our customers. We have used thousands of them ourselves, with the utmost satisfaction and confidently sell them as the best goods for the money on the market.

## SMITH and GAETZ, "Headquarters for Sporting Goods"

### No. 55 Black Diamond Grade

The Black Diamond grade is a medium price gun with all the fine appearance and finish combined with good, sound workmanship that go to make this model one of our most attractive sellers. Strongly selected imported walnut stocks, full pistol grip. Length 14 1/2, drop 24 to 34 inches. Barrels—"Trojan" Nitro Steel. 12 gauge, 28, 30, 32 inch; 16 gauge, 26 to 28 inch. Weight, 12 gauge, 6 1/2 to 8 lbs.; 16 gauge, 6 to 7 lbs. Price \$10.00. Same as above with automatic ejector \$65.00.

### No. 113--Parker Bros. 12 ga., Vulcan Steel Barrels

American walnut oil finished stock, checkered pistol grip, rubber capped, hard rubber butt plate, checkered. Matted rib. These guns are so well known here that we need not say much about them. But if you call at our store we can give you the names of a number of local people who have purchased them from us, and are enthusiastic over their shooting qualities. Price \$55.00.

No. 114—Exactly the same gun as No. 113, excepting that this is an automatic ejector. Price \$55.00. We shall be glad to pattern these last two lines for any non-resident prospective buyer, and send same to his address.

### RIFLES

#### No. 115 Stevens "Little Scout"

22 Cal., shoots with wonderful accuracy. All parts drop forged, machine made, interchangeable, shoots R.B. caps, 22 short, long or 22 rifle. Weight 2 1/2 lbs., length of barrel 18 inches. Price \$35.00.

#### No. 116 Remington Take Down

22 cal., de-carbonized steel barrel, accurately bored and rifled, case-hardened frame, genuine walnut stock and fore-end; rifle butt plate, barrel detached from stock by loosening thumb-screw. Chambered to shoot BB caps, 22 short, long and long rifle. Price \$50.00.

#### No. 117 Stevens Crack Shot

Take down, 22 cal., 20 inch half octagon barrel; has automatic safety, making accidental discharge impossible. Chambered to shoot BB caps, 22 short, 22 long and 22 long rifle. Price \$55.00.

#### No. 118 Winchester Thumb Trigger

Single shot take down, 22 calibre, 18 inch round barrel, bolt action thumb trigger located on upper side of grip, operated by pressing down with the thumb, rebounding lock. Polished straight grip stock, 18 1/2 inches long, with checkered rubber butt plate attached with four screws, open front and rear sights chambered to shoot BB caps, 22 short, and 22 long rifle cartridges. Price \$60.00.

#### No. 119 Winchester Model 1902

Single shot, 22 calibre, 18 inch round barrel, bolt action, plain trigger, rebounding lock, 18 inch highly polished straight grip stock with blued steel butt plates open front and rear sights. Chambered to shoot BB caps, 22 short, 22 long and 22 long rifle cartridges. Price \$60.00.

#### No. 121 Stevens Visible Loading Repeater

22 calibre, 20 inch round barrel, varnished stock and slide, case hardened frame and rubber butt plate. Chambered to shoot BB caps and 22 short rifle cartridges, of which the magazine will hold 21. This is the best value we have ever handled, and is so superior that we are able to offer our customers a repeating rifle at the low price of \$10. No. 122—Remington, 22 calibre, hammerless, take down. Solid breech 22 inch barrel. A very handsome repeater adapted to 22 short, long and long rifle cartridges. Magazine hold 14 short, 11 long or 10 long rifle cartridges. Price \$14.00.

No. 123—Savage hammerless, 22 cal. with straight stock and shotgun butt. This rifle has the "solid top" and is fitted with a "safety" on top of its frame. All parts interchangeable, and it shoots all the sizes of 22 ammunition. Price \$15.00.

In addition to the above rifles we carry Winchester and Savage in 30-30, 32 and 303 calibre, and shall be pleased to quote, upon request

### Gun Implements

## LOCAL AND GENERAL

Next Sunday at three o'clock J. A. Shirley, of Wycliffe College, Toronto, will hold a Church of England service at Balmoral school house.

Mr. and Mrs. Robert Brown and their two sons, Horace and Glenn, of Grundy Centre, Iowa, are visiting at the home of Mrs. Thos. Brown on Spruce Canyon Stock Farm.

Farmers everywhere are now busy with their hay and a great crop is assured. The grain crop will be a bumper, although the straw is heavier than we would have liked for easy harvesting.

W. S. Cottingham, General Agent of the Mutual Life Insurance Company of Canada, of Winnipeg, Man., was in town yesterday, paying a flying visit to his cousin, Capt. Cottingham, Dominion Lands Agent here.

A. W. Ford arrived in Red Deer last week from Bath, England, and will start up as upholsterer and furniture repairer on 2nd Street N.E. Mr. Ford is a tradesman with several years' experience in England, and should get a big business in Red Deer.

The roads are once again in good shape for travelling, and driving and automobiling are again the order. The road to Sylvan Lake is in first class shape, a lot of work having been done on it since the heavy rains, and roads east and west are fine, thanks to the work done by the various Local Improvement Districts.

Dr. Clark said Saturday evening the News was in favor of reciprocity in 1901. The News was not in favor of reciprocity in 1908, and Dr. Clark knows it. We are not going to say anything stronger just now. We asked for markets in 1908, and since that time a splendid market has been worked up in B.C., which we will lose if reciprocity comes in force. In cattle we have the Swift people, Pat Burns and Morris Bros. erecting great packing plants in Alberta, and to-day we can get a better price for our cattle in Alberta than we can in the United States. We have our markets at home. Things have changed since 1908.

## For Your Vacation SNAP SHOTS

We have a splendid range of

## PHOTO ALBUMS

Substantially bound in Cloth, Leatherette and Leather bindings; extra well sewn, leaves are carbon black.

We have all sizes from the small BROWNIE

to largest view camera sizes.

Prices from 25c to \$3.00 each

These are just the thing for preserving a record in pictures of your vacation outing.

Croquet sets, public and high school books, supplementary reading, scribbles, slates and lead pencils, at John McVicar's bookstore. Agent for rubber stamps.

Mr. and Mrs. Lloyd-Jones and baby boy who have been visiting her parents, Mr. and Mrs. Ira Brishin, for several weeks, returned to their home in Victoria, B.C., a few days ago.

The football game tonight is in aid of a good cause, the Hospital Aid, so go and see a good game. The Citizens' Band have kindly offered to enliven the evening with tender strains.

H. G. Stone is in Calgary attending the annual convention of the Alberta Provincial Directors' and Embalmers' Association. Mr. Stone is Secretary Treasurer of the Association.

Canon and Mrs. Hogue, of London, Ont., were the guests of Mrs. J. G. MacGregor last week. Mr. Neilson, Vice President of the A.C.R., and Mrs. Neilson are also the guests of Mr. and Mrs. MacGregor.

Mrs. Ballance and little daughter Helen are returning for Evarts after a trip to the Rockies and eastern points, which they enjoyed very much. The scenery, especially on the coast line, is something to be always remembered. Mrs. Ballance's health is very slightly improved.

The Town Council of Innisfail have instructed their solicitor to prepare a by-law for submission to the people of \$15,000 to install an electric lighting plant in that town. The by-law should carry, as it would add greatly to the attractiveness of our snug, bright, progressive neighbor to the south of us.

C. H. Crystale, J.P., a prominent merchant of Oshawa, Ont., paid Red Deer a flying visit yesterday, and was the guest of J. A. Carswell while in town. Mr. Crystale thinks we have a great country, and our town is the gem of the west. Our air is just what he is looking for, and he thinks he will come here to reside.

W. G. Phelps, one of the boys with Engineer McKnight's outfit on the C.N.R. front end, says they are having a good deal of trouble with bears. They do not seem very vicious by reports; their main specialty seems to be beer and molasses. One has been killed at McMan's camp and one at the culvert camp; but two-legged bears are scarce and the boys are lonely.

Divine Service at Shady Nook

Mr. Wm. Scott, the Student Missionary of Penhold, will preach in Shady Nook school house next Sunday night at 7 o'clock, service beginning promptly.

Mr. Scott will preach in Ridgewood church at 3:30 p.m. on "Coming to Ourselves," and in Shady Nook school house on "The cross, its weight and offence." Everyone is cordially invited to attend these services.

## Sylvan Lake

It is wonderful how things brighten up here with a little bit of sun. After Monday of last week the weather was certainly fine and campers really enjoyed themselves. Though for many certainly had to work pretty hard to make up for lost time. Hay crops are good, but it has been hard to harvest them. (And crops) are promising. If we could only get dry weather, though they are a little backward.

Mr. Ratter's hotel is kept very full, and he does a rushing business in his store selling goods to the campers.

There was a slight touch of frost out here one day last week, though it did no damage, but we noticed that some of the tender vegetables in Mrs. Fouchier's garden were slightly tipped. Mrs. Fouchier has a splendid garden, which is well worth a trip to see. She has small fruits in abundance as well as all the more common garden products, but she easily finds sale for them among the campers.

Mr. Daw has a strange pet in a young dog. They found it one day being worried by the dogs and they rescued it, brought it to their tent and used it gently. It has now become quite tame and could not be driven from the camp. It weighs about thirty or forty pounds, and makes a fine playmate for the children. It is now great friends with Mr. Daw's beautiful collie, and it will eat anything from carpet tacks to drawing paper.

Mr. Anderson, of Calgary, has rented the Ballard cottage for some time, and his family are residing there. Harold Anderson took many pictures of the lake yesterday, and was the means of bringing many new campers to see it this year. Mr. Anderson will probably build out here some day.

The Red Deer Boy Scouts broke camp on Friday last and returned to town, having spent a jolly time for the past two weeks. Discipline was strict and great order was kept in the camp. The first few days out from town some of the boys were inclined to be roughly simply because they were not sleeping on feather beds, and being fed on fried spring chicken, devilled ham and sauerkraut. A remedy was soon found, however, and anyone grumbling, when such a proceeding was uncalled for, was immediately dumped into the lake without having time to remove his outer garments, and it was wonderful how well this worked. The boys indulged in all kinds of roving and swimming games, and obtained many benefits from this sojourn. They can't become first class Scouts until they can swim a certain distance, and their regular hours for rising, retiring, and meal times, and the clear notes of the bugle could be heard along the lake shore, and woe to any who turned not up at the appointed time. They performed many life-saving feats, such as hunting up lost children, rescuing boats in distress, etc. On Sunday they attended divine service at the Sunday School tent. They have been much missed this week since their departure, and all hope they will be back next year. Scoutmasters Moore and Gibson have been well pleased with the conduct of the boys, and they think that this is one of the best trainings that a boy could have, and they expect to increase the size of the troop. Scoutmaster Gibson has been greatly enthralled with the sailboat that formerly belonged to C. K. Wright, and the latter end of last week he could be seen at almost any hour flashing over the sparkling waves with Mrs. Gibson and the baby, and it was one of the highest ambitions of the Scouts to be allowed to go along for a sail. But now they are gone, and the girls out here are sad and dejected, for there were some brave sparks amongst them, though, but we do not want to say that the place shall know them no more. The Thursday evening before they left Mrs. Gibson gave the boys a fine entertainment in the shape of a taffy pull, and they certainly enjoyed themselves, and it rather added to their enjoyment that some enterprising young ladies had outlived their hair for the occasion. The generous donation of the Town covered all expenses of camp, so that the \$1 asked from every Scout as an emergency fund was not required, and it being refunded. Warm thanks are also due to the A.C.R. authorities, Major Gaetz and Capt. Cottingham for loan of tents, etc.

Mr. A. Loisselle hopes to have his new hotel open in the near future. He is installing an electric lighting plant and other modern conveniences and will have a comfortable place. He is a little out of the way from the present camping sites, but he intends to build up the earth in front of his hotel so as to make it high and dry, and to remove the roads and runways from the lake immediately in front of his site. He will also have a large livery stable in connection.

Greene & Payne's boats have been kept pretty busy this year, and Manager Jones informs us that they intend to have a dozen steel boats for use next year. That will certainly be fine, as the steel boats are very light and easy riding, though perhaps not so good on rough water.

The C.N.R. and A.C.R. graders are working only a few hundred yards from each other here and naturally there is some competition as to speed and quality of grading being done. Constable McArthur, we understand, is doing very satisfactory and speedy work on the A.C.R. Mr. Armeau held the graders up from crossing his place for a few days but it is hoped that an agreement will soon be reached.

Mr. Falkner, formerly photographer in Red Deer, has been taking many views out here lately with his large camera, and, with the numberless views being taken, we expect to get much advertisement for our beautiful summer resort.

There are very few tents now at Upper Camp, though the cottages are nearly all occupied. At Lower Camp there are more tents, though the Y.W.C.A. from Calgary, and the Sunday School Association left early last week. The freighters have kept going, but they are glad to see the roads decently dry again.

Fish have been scarcer than usual in the lake this year, though by going far enough they can be found alright. Many people think it would be a great improvement if the Government would have the lake cleaned out and the lake stocked with a more game fish.

WANTED.—Good general servant. Apply Mrs. S. N. Carscadden, 300, 1st St. South. Aug. 16, 1w.

WANTED.—Good competent servant. Apply to Mrs. L. M. Gaetz. Red Deer, Aug. 15th.
